

## ***DETAILED ACTION***

### **Status of the Claims**

Claims 3, 4, 7, 8, 9, 11 and 12 have been canceled. Therefore, claims 1, 2, 5, 6, 10 and 13 are currently pending in this application. Claim 13 is withdrawn from further consideration by the Examiner, 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention. The withdrawn subject matter is patentably distinct from the elected subject matter as it differs in structure and element and would require separate search considerations. In addition, a reference, which anticipates one group, would not render obvious the other.

### **Previous objections**

Claims 1-6 and 10 were objected to for containing non-elected subject matter. Applicants canceled claims 3 and 4 and amended claim 1 to overcome the objections.

### **Rejoinder**

In accordance with M.P.EP 821.04 and In re Ochiai, 71 F.3d 1565, 37 USPQ 1127 (Fed. Cir. 1995), rejoinder of product claims with process claims commensurate in scope with the allowed product claims will occur following a finding that the product claims are allowable. Since the product claims were found allowable, claim 13, which is directed to method of use claim, has been rejoined with the allowed product. Therefore, the restriction between the compounds and the method is hereby withdrawn.

### **Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR
